

# Letter 'i'

## Parents and Carers Information Sheet

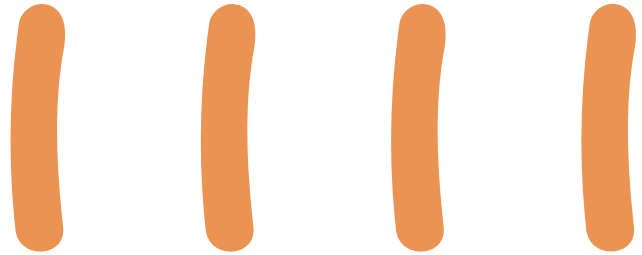

This week, we have been learning to write the letter 'i'.

### Letter Family

The letter 'i' is part of the **Ladder Lemur Letter Family**.

### Explore at Home

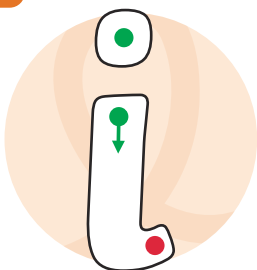

Fill a shallow tray with a small amount of water. Invite your child to use their 'pointer' finger to draw straight lines from top to bottom in the water.

### Letter Formation Rhyme

**Down the insect's body and tail, dot the head.**

### Practise

Children should start on the green dot and finish on the red dot when writing the letter 'i'. Encourage them to say the letter formation rhyme as they write.

**Parents and Carers Considerations:** This resource has been created to support parents and carers in understanding how their child may gradually develop skills in letter formation, early writing and the physical skills needed for writing. It also offers practical ideas for practicing at home.

We advise you to use your judgement and knowledge of your child to plan activities and consider the appropriateness of the resources in relation to their needs, interests, emotional wellbeing and journey of development.
