

# Letter 'y'

## Parents and Carers Information Sheet

This week, we have been learning to write the letter 'y'.

### Letter Family

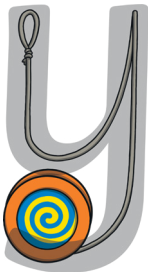

The letter 'y' is part of the **Ladder Lemur Letter Family**.

### Explore at Home

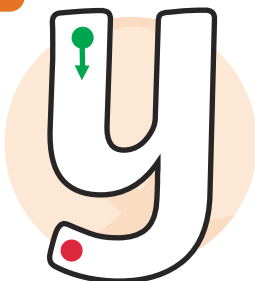

Shine a lamp or torch behind your child so their shadow shows on the wall. Ask your child to use their arm to draw a downward stroke in the air. Watch together as their shadow makes the shapes.

### Letter Formation Rhyme

**Swing the yoyo up, drop it all the way down and underneath.**

### Practise

Children should start on the green dot and finish on the red dot when writing the letter 'y'. Encourage them to say the letter formation rhyme as they write.

**Parents and Carers Considerations:** This resource has been created to support parents and carers in understanding how their child may gradually develop skills in letter formation, early writing and the physical skills needed for writing. It also offers practical ideas for practicing at home.

We advise you to use your judgement and knowledge of your child to plan activities and consider the appropriateness of the resources in relation to their needs, interests, emotional wellbeing and journey of development.
